

## SCENIC VIEWS

### Cardada Cimetta

The mountain region of Cardada Cimetta offers a truly unique view overlooking the entire area of Locarno as well as Switzerland's two extremes: the lowest point, Lake Maggiore, and the highest one, the Dufour peak located on the Monte Rosa mountain range. The summit is easily accessible from Locarno's city centre by taking the funicular railway to Orselina, then the cable car to Cardada (1340 m) and finally the chairlift to Cimetta (1670 m). The cable car cabins and the departure and arrival stations were designed by Ticino architect Mario Botta.

## VILLAGES

### Rasa

It is difficult to escape Rasa's charm, in the Centovalli Valley. The calm of the village, located at 900 meters and accessible only on foot or via the cable car mounting up from Verdasio, the harmony of its stone buildings and the silence that lingers in the lovingly cared-for vegetable gardens and yards are what make this a very special place. Surrounding the little church dedicated to Saint Anne stand old rural and noblemen's homes. A stop at the grotto (tavern) is a must before going back with the cable car or before descending on foot to the beautiful village of Palagnedra, through the old hamlet of Bordei.

## EXPERIENCE

### Bellinzona's Market

It is not necessary to travel to faraway exotic places to unearth animated and colorful markets whose roots date from ancient times. You can find many such examples in Ticino and in nearby Italian villages of Lombardy and Piedmont. The Ticino's most interesting one is without doubt the Bellinzona market held on Saturday morning. It is located in the streets of the historic centre of this authentic Ticino town where residents still enjoy meeting each other and having a chat in front of the stands offering the regional products; just like in the past.
