

TREKKING

Sentierone of the Verzasca Valley

Verzasca Valley is crossed by a wide network of paths, the most important of which is certainly the "Sentierone" (Long Trail), the mule track that in ancient times enabled the valley dwellers to travel towards the plain. Today, it is a very popular walk with hikers because of the beauty of the landscape through the woods and along the river's emerald-coloured waters. Also groups and families appreciate very much this trail because it is easy and adaptable to different needs: in fact, it can be walked along its entire length or only a part of it, with easy access to the numerous public transport stops for the return journey.

WATER

Termali Salini & Spa

An elegant oasis of peace and rest that offers all the rituals for true relaxation. The Termali Salini & Spa wellness centre, adjacent to the Lido of Locarno, boasts a remarkably wide offering: 400m2 of both indoor and outdoor salt-water pools, saunas, Turkish bath, rest areas, massages, and other treatments. From almost anywhere in the building the lake is visible in the background, surrounded by its stunning crown of mountains. When immersed in the large heated, outdoor pool, you genuinely have the impression of actually swimming in Lake Maggiore. Between a bath or a sauna, you can enjoy small delicacies and healthy snacks at the bistro.

TREKKING

Tibetan Bridge of Curzútt

This four-hour walk in the hills along the right bank of the Ticino River, in the region facing the Magadino Plain, does not only offer a beautiful scenery, but also boasts several points of interest. The thrill of crossing one of the longest Tibetan bridges in Switzerland (270 metres); the discovery of the Romanesque church of San Bernardo, featuring a number of beautiful frescoes of 14th and 15th century; a visit to the old and beautifully restored housing cluster of Curzútt, testifying to the time when daily life mainly revolved around hillside activities.
