EXPERIENCE

Centovallina Amazing Journey

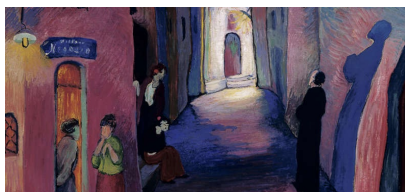

According to Lonely Planet, the Vigezzina-Centovalli Railway is one of the most beautiful in the world. It offers a slow train ride from Locarno to Domodossola (Italy), through Centovalli and the Viguzzo Valley. A unique experience that takes travelers on a scenic journey through deep gorges, wild mountains, rivers and waterfalls. During the two-hour trip, you'll find yourself immersed amidst untamed nature, harmoniously interspersed with small, picturesque villages. A free audio guide, available on all international trains, allows travelers to discover details and interesting facts, and to obtain useful information about the entire route.

MUSEUMS

Ascona Museum of Modern Art

The Museo Comunale d'Arte Moderna di Ascona (Modern Art Museum of Ascona) exhibits works from those avant-garde artists who, fleeing from the horrors of World War I in Northern Europe, found refuge in the Locarno region, on the shores of Lake Maggiore. The region was known for the reputation of the Monte Verità (literally "Hill of Truth"). The Museum disposes of two buildings: the main one is located in a beautiful 16th century palace in the heart of Ascona, while the other is located in the Castello San Materno (San Materno Castle). It is especially known to host the Collection of the Marianne Werefkin Foundation.

MUSEUMS

Museum of Fossils Monte San Giorgio

Discover the charm of a lost world of over 200 million years ago. The Museum of fossils of Monte San Giorgio presents the important paleontological heritage of the region, which is considered one of the most important fossil deposits in the world and registered as a UNESCO World Heritage Site. The fossils of San Giorgio are famous for their variety and their exceptional state of preservation. The exhibit is meant for a vast public and thanks to multimedia technologies, it allows even non-experts to immerse themselves into the complex world of the Triassic.
