

WATER

Cruises on Lake Lugano

Locked in by mountains whose forests make their way down to the shore, Lake Lugano, differently from Lake Maggiore, prides itself of its untamed look. The beautiful panoramas already fascinated travelers of the *Grand Tour* who couldn't miss the traditional boat tour. The first steamer to sail the lake's waters was the "Ticino" in 1848. Today, a network of modern boats offer a wide choice of cruises and the possibility of reaching the region's main attractions by lake, including: Gandria, Morcote, Swissminiatur, the San Salvatore funicular and the Monte Generoso cogwheel railways.

TREKKING

Lugano Trekking

An entire day dedicated to the beautiful Lugano panoramas and the lake dominated by Monte San Salvatore, nicknamed Switzerland's "Sugarloaf Mountain". After an ascent by funicular to Monte Brè, you may visit the namesake picturesque village, a vacationing destination and residence of many artists. Starting from the village is a circular walk of about 5 hours that leads to Monte Boglia. Here one can enjoy another incredible perspective over the Lugano bay, the Italian side of the lakeshore to the South and the mountains to the North, including the distinctive peaks of the Denti della Vecchia (literally "Old Lady's Teeth").

TREKKING

Ritorn – Piora

The Alpine landscape of the Piora Valley, rich in green pastures in bloom with scattered little lakes, is one of the most idyllic in Ticino. The flora and fauna of these vast and silent spaces are of great interest. It is still possible to encounter eagles, chamois, roe deer, groundhogs, red frogs and admire the beautiful blossoming of gentians, buttercups, arnica and wild orchids. You can get there with one of Europe's steepest funiculars that leaves from Piotta. Extremely numerous are the signposted trails that cross the region and are of various difficulty and length. We recommend two of them.
