

**TREKKING**

**Tamaro – Lema**

The crossing that from Monte Tamaro leads to Monte Lema (or reverse) is one of the most spectacular walks in Ticino. It has become a "must do", attracting even the least daring of hikers. It is a small trekking, accessible to all, spectacular for the beautiful scenery; scenic for the incredible view of valleys, urban centers, lakes and the most majestic peaks of the Alps; exciting because it gives the sensation of being suspended between Earth and sky. During tourist season a shuttle bus service brings hikers back from the arrival point to the starting point.

**PARKS**

**Parco Scherrer**

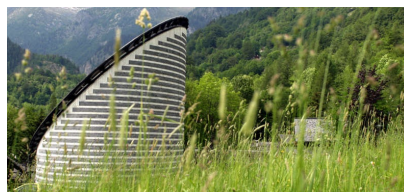

A unique atmosphere lingers at Scherrer Park in Morcote, on Lake Lugano. Inside the lush subtropical vegetation, reminding of exotic countries, are in fact architectural and artistic works inspired by distant cultures such as a Siamese tea house, an Egyptian temple and Greek sculptures. This fascinating garden is the work of Hermann Arthur Scherrer who since the 1930s dreamt of recreating a magical place inspired by his travels. Between palm trees and bamboo, eucalyptuses and lemon trees, cedars and oleanders, the visitor can admire many floral and scented species of plants.

**CITIES & MONUMENTS**

**Church of Mogno**

At 7:15 am on April 25th 1986 an avalanche struck the village of Mogno in the Maggia Valley destroying the 17th century church of San Giovanni Battista (Saint John the Baptist). A commission for the church's reconstruction was formed and the project given to the architect Mario Botta. A lot of controversy surrounded the project and its realization. Nevertheless, Botta built one of his most important works in Mogno. The church that we see today is the answer that underlines "the positivity of construction as an expression of the toils of humankind" when faced with nature's devastating force, affirms Botta.
